

Product name ClearView Phos-Boss

Revision date 5-11-15

Section 1 Identification

Product ID: Phos Boss

Chemical Name:Proprietary CompoundsSynonyms:Phosphate ReducerChemical Formula:Proprietary Compounds

CAS Number: N/A

Product Use: Phosphate Remover

Supplier: Oreq Corporation

42306 Remington Avenue Temecula, CA 92590

951-296-5076

Emergency Phone# Chemtrec: 1-800-424-9300

Section 2 Hazards identification

-OSHA Regulatory Status: This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.122). Not a dangerous substance or mixture according to the Globally Harmonized System (GHS).

Emergency Overview

Potential Health Effects

Primary Entry Routes: By ingestion and through skin contact.

Target Organs: None known.

Acute Effects
Inhalation: None.

Eye: Possible mild and temporary irritation

Skin: Possible mild irritant

Ingestion: With substantial and/or long term ingestion of the as-received product, possible delayed blood clot

ting, sensitivity to heat, skin itching, increased odor and taste awareness, and liver damage.

Carcinogenicity: IARC, NTP, and OSHA do not list Spa Phos as a carcinogen. **Medical Conditions Aggravated by Long-Term Exposure:** None known.

Chronic Effects: There are no known chronic effects, except as indicated above under Acute Effects.

Section 3 Composition / Information on ingredients

Ingredient Name CAS Number

The precise composition of Phos Boss is proprietary information. A more complete disclosure will be made to an attending physician in the event of a medical emergency involving this product.

N/A

When utilized in accordance with Phos Boss instructions, Phos Boss is considered to be nontoxic and nonhazardous.

Trace Impurities: <0.02%

Section 4 First - aid measures

Inhalation: In the improbable event of product mist inhalation, remove the affected individual to fresh air and

provide artificial respiration as required. Obtain medical attention.

Eye Contact: Flush thoroughly with water for 5 minutes. Obtain medical attention if irritation of eye membranes

occurs.

Skin Contact: Wash contacted areas with soap and water.

Ingestion: Drink several glasses of water. Obtain medical attention if gastrointestinal irritation occurs.

After first aid, get appropriate in-plant, paramedic, or community medical support if exposure symptoms persist.

Note to Physicians: Under normal use and human exposure conditions, the product is considered nontoxic and

nonhazardous.

Section 5 Fire - fighting measures

Flash Point: None Flash Point Method: N/A
Burning Rate: N/A Autoignition Temperature: N/A

LEL: N/A UEL: N/A

Flammability Classification: N/A Extinguishing Media: N/A

Unusual Fire or Explosion Hazards: None.

Hazardous Combustion Products: Thermal oxidative decomposition of the product may release toxic fumes of

hydrogen chloride and metal oxide.

Fire-Fighting Instructions: Do not release runoff from fire control methods to sewers or waterways.

Fire-Fighting Equipment: Because fire may produce toxic thermal decomposition products, wear a

self-contained breathing apparatus (SCBA) with a full facepiece operated in

pressure-demand or positive-pressure mode.

Section 6 Accidental release measures

Spill /Leak Procedures:

Small & Large Spills:

Containment: For all spills, pick up mechanically and place in suitable container for disposal. Do

not release into sewers or waterways.

Cleanup: After product recovery and removal, flush spill area with water to a sanitary sewer.

Regulatory Requirements: Follow applicable OSHA regulations (29 CFR 1910.120).

Section 7 Handling and storage

Handling Precautions: Wear appropriate eye and glove protection to minimize exposure. **Storage Requirements:** Do not store with oxidizing materials. Keep containers sealed.

Regulatory Requirements: None established

Product name ClearView Phos-Boss

Revision date 5-11-15

Section 8 Exposure controls / personal protection

Engineering Controls

Ventilation: In the improbable event of product misting, provide general or local exhaust ventilation

systems to mini-mize airborne concentrations. Local exhaust ventilation is preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

Administrative Controls

Respiratory Protection:

If product misting occurs, follow OSHA respirator regulations (29 CFR 1910.134) and, if

necessary, wear a MSHA/NIOSH-approved respirator. Select respirator based on its suitability to provide adequate worker protection for given working condition, level of airborne contamination, and presence of sufficient oxygen. If respirators are used, OSHA requires a written respiratory protection program that includes at least: medical certification, training, fit-

testing, periodic environmental monitoring, maintenance, inspection, cleaning, and

convenient, sanitary storage areas.

Protective Clothing/Equipment:

Wear chemically protective gloves to prevent prolonged or repeated skin contact.

Wear protective eyeglasses or chemical safety goggles, per OSHA eye- and face-protection regulations (29 CFR1910.133). Contact lenses are not eye protective devices. Appropriate

eye protection must be worn instead of, or in conjunction with contact lenses.

Safety Stations: Make emergency eyewash stations, safety/quick-drench showers, and washing facilities

available in work area.

Contaminated Equipment: Separate contaminated work clothes from street clothes. Launder before reuse. Remove

material from your shoes and clean personal protective equipment after use.

Comments: Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this

material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics.

As with all chemical substances, please use caution and keep away from children.

Section 9 Physical and chemical properties

Physical State: Liquid. Water Solubility: Completely soluble

Appearance and Odor: Clear, colorless with Other Solubilities: Not soluble in hydrocarbons.

no discernable odor.

Odor Threshold: N/A Boiling Point: 230°F (Typical). Vapor Pressure: Not determined. Freezing Point: ~20°F (Typical).

Vapor Density (Air=1): N/A.Viscosity: ~20 cPsFormula Weight: ProprietaryRefractive Index: N/ADensity: 9.50 lbs./gallon, typical.Surface Tension: N/ASpecific Gravity (H2O=1, at 4 °C): 1.12% Volatile: N/A

pH: 3.5-4.0 Evaporation Rate: N/A

Section 10 Stability and reactivity

Stability: Stable at room temperature in closed containers under normal storage and handling

conditions.

Polymerization: Hazardous polymerization cannot occur. **Chemical Incompatibilities:** Do not store with oxidizers or acidic agents.

Conditions to Avoid:Do not use as-received product with stainless steel storage containers or equipment

- chloride corrosion will occur.

Hazardous Decomposition Products: Thermal oxidative decomposition can produce fumes of hydrogen chloride and

lanthanum oxide.

Revision date 5-11-15

Section 11 **Toxicological information**

Toxicity Data

Eye Effects: As received, irritation of eye membranes

Skin Effects: As received, irritating effect

Ingestion Effects: As received, possible delayed blood Chronic Effects: None known clotting, sensitivity to heat, increased taste sensitivity,

damage with substantial ingestion.

Acute Inhalation Effects:

Human, inhalation, TCLo: Not established.

Acute Oral Toxicity: Rat, oral, LD50: 4200 kg (as 100% LaCl3)

Carcinogenicity: None known and liver damage with and liver

Mutagenicity: None known Teratogenicity: None known

Section 12 **Ecological information**

Eco toxicity: Specific data not established.

Environmental Fate

Environmental Transport: Water or soil Environmental Degradation: Not established Soil Absorption/Mobility: Not established

Section 13 **Disposal considerations**

Contact your local supplier or a licensed contractor for detailed recommendations. Recovered spilled product Disposal:

may be disposed of by either landfill or incineration. Follow applicable federal, state and local regulations

Disposal Regulatory Requirements: None.

Container Cleaning and Disposal: Thoroughly clean empty containers with water and recycle.

Do not use empty containers for food storage.

Section 14 Transport information

Shipping Name: Chemicals NOI Shipping Symbols: None.

Hazard Class: Nonhazardous.

ID No.: None. Packing Group: N/A

Label: None.

Special Provisions (172.102): None

Packaging Authorizations

a) Exceptions: N/A

b) Non-bulk Packaging: N/A

c) Bulk Packaging: N/A

Quantity Limitations

a) Passenger, Aircraft, or Railcar: None.

b) Cargo Aircraft Only: None.

Vessel Stowage Requirements a) Vessel Stowage: None.

b) Other: N/A

Section 15 Regulatory information

EPA Regulations:

RCRA Hazardous Waste Number: Not listed (40 CFR 261.33) RCRA Hazardous Waste Classification (40 CFR 261): Not classified

CERCLA Hazardous Substance (40 CFR 302.4) unlisted specific per RCRA, Sec. 3001; CWA, Sec. 311 (b)(4);

CWA, Sec. 307(a), CAA, Sec. 112

CERCLA Reportable Quantity (RQ): None.

SARA 311/312 Codes: None.

SARA Toxic Chemical (40 CFR 372.65): Not listed

SARA EHS (Extremely Hazardous Substance) (40 CFR 355): Not listed, Threshold Planning Quantity (TPQ)

OSHA Regulations:

Air Contaminant (29 CFR 1910.1000, Table Z-1, Z-1-A): Not listed OSHA Specifically Regulated Substance (29CFR 1910): Not listed.

State Regulations: None.
