

Scent-Trific™

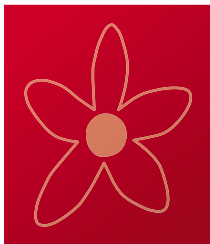

***The
Chlorine + Tab!***

Scent-Trific™

With Chlorine Plus™

✿ Scent-Trific Chlorine Plus Tabs are an advanced, low odor, full strength chlorine technology. No other tab delivers more!

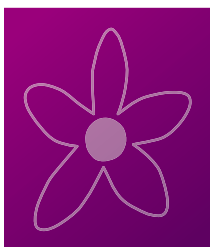

No Big Box Competition

Millions of dollars are lost to big box stores in chlorine sales every year. By offering Scent-Trific to your customers, you provide them with a superior product that's not available through any big box source thus putting the dollars back into your pocket, where they belong.

Exclusive Product

Scent-Trific tabs are only sold to pool professionals ensuring that you're offering a product that promotes and protects your business. Show your customers how much you care about them and the quality of their pool water by giving them a superior product that they can only get from their trusted pool source.

Built In Profitability

Scent-Trific tabs are protected by MAP pricing ensuring that the integrity of the product line and your ability to make a profit from it are secure. Unlike bargain tabs which are price slashed to the point of non-existent margins, Scent-Trific tabs are protected – kind of like purchasing an insurance policy for your tab business.

Repeat Customers

Since Scent-Trific is only offered through pool professionals, your customers will continue to come back to you for their replacement supplies. When your customer understands the benefits, and cost savings of using this superior tab, they will continue to want to provide only the best water sanitizing product to their pool environment – and all its swimmers.

Cross-Sell Opportunities

By bringing your customers back to you for their Scent-Trific product, you also increase the opportunity to cross-sell them on other products and/or services that you offer. Something as simple as coming by your location to pick up a restock of Scent-Trific tabs could result in additional toy, equipment, furniture, or accessory sales.
