ANIMAL™ *Pro Snap Lock*™ *Pole*

by poolpals™

poolpals™

The Pro Snap Lock Is A No-Slip, No-Twist, Positive-Lock, Telescoping Pole

Side View with handle extended.

Easy Push-Button Operation | *Professional Grade Aluminum* | *Positive Lock Indexing Positions* | *Engineered For Superior Strength* | *Comfortable Molded Grip*
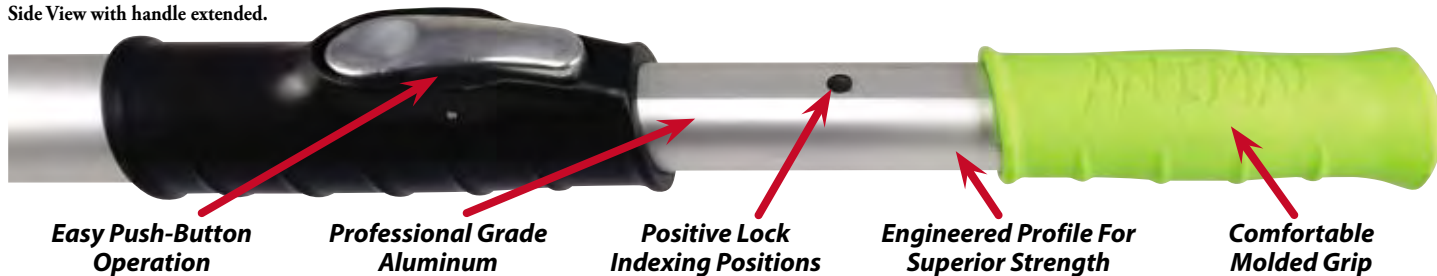

This innovative pole design offers unsurpassed strength while providing superior ease of operation. Push-button adjusting along with positive locking positions and a molded comfort grip make it the perfect low-impact tool for the repetitive use professional.

Since the pole locks into position, you no longer have to twist cams to adjust the length, twist to lock it, check that you've twisted enough to prevent slipping, and then go through the whole process again for another area or the next job. Simply press, slide, click and go.

6'-12' **2 Piece Pole PL41612**

8'-16' **2 Piece Pole PL41816**

ANIMAL™ *Pro Vacuums*

by poolpals™

With Hydrodynamic Technology And SPEEDLOCK™ Swivel Handle!

No Metal!

The new Animal Pro vacuum profile is designed to develop additional downward force while moving both forward and backward. Flexible vacuum strips underneath reduce the surface gap space, creating higher vacuum pressure to capture more debris, while hydrodynamically shaped weight covers improve movement throughout the water.

Durable zero-metal urethane wheels provide a longer wearing part, superior maneuverability, and the elimination of bearings that can rust.

The NEW swivel handle offers the superior strength of the SpeedLock EZ Touch™ connection but it now swivels for added flexibility along walls, floors, and steps, and with no metal parts, it ensures continuously smooth movement and elimination of parts that could rust.

Balanced Weights Create Positive Surface Traction

Stinger 18" Brush
by poolpals

The Colors Connect Powerful Tools To Clean Pools!

One Hand, Easy Push!

You can feel the brush cling to the pool surface.

- Strength & flexibility; designed to contour with the pool's surface.
- Cutting edge bristle technology.
- Corner bristles for hard to reach nooks.
- Powerful magnetic pick-ups for metal objects that can leave stains.
- Fits all Stinger poles (see pg. 9) and standard pool poles.

Stinger Goes Mini!

Mini Stinger : Ideal for Spas, Fountains or Ponds!

Mini Brush
Gets in the corners better than a larger pool brush.

Stinger Mini Brush
12" brush with poly bristles and magnetic pick-ups on the endcaps just like our larger brushes. Great for all surfaces, including vinyl. - BR4012S

New Magnetic Pick-Ups

Mini Rakes
Able to get into tight spots that other larger rakes can't.

Stinger Mini Rake
w/12" Standard Bag
LN4045

Stinger Mini Sand Rake
w/12" Sand Bag
LN4040

Mini Pole *3'-6'*

The same Stinger quality, just in a smaller size.

3' - 6'. Fits easily in your truckbed. Why carry a longer, heavier pole to a small job? Your go-to pole and tool combo. - PL40036

Mini Vacuum
Works with the pressure from a garden hose to create a Venturi action that draws debris into the bag for easy removal. - VH2200C

THE SPEED LOCK SYSTEM

poolpals

The Best Pool Tool Connection!

SpeedLock Power!

The SpeedLock System is the most powerful tool connection system available, interlocking both pole and tool together. Cut-away shots below show how the pole seats into the handle, providing superior control and strength.

Innovative

The first professional quality tools with no metal. Elimination of metal parts means that there's no opportunity for metal staining in plaster pools or tears in vinyl lined pools. No other connection system interlocks with the pole like SpeedLock does, thus improving control and reducing pole flare.

Strength

The SpeedLock System integrates the EZ Touch™ clip that fits all Oreq poles. This makes the tool to pole connection 200% stronger than 2 point clip connections.

Savings

The SpeedLock System saves you money and time by preventing pole flare resulting in shortened pole life and new pole purchases.

Versatility

The SpeedLock System not only works seamlessly with all Animal and Stinger tools, but fits all traditional 2 point tool and pole connectors as well.
