The following is only the basic usage directions. Refer to the actual product label for First Aid, Warnings and other statements of use.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is made especially to control algae growth in all types of swimming pools. This product is not compatible with non-chlorine pools/Baquacil pools. Its long-lasting action will control existing algae. Subsequent doses will control recontamination by algae. Treated water can be used immediately...no waiting.

This product comes concentrated. Dilute with at least nine parts of water before applying. Pour required amount of this product into plastic watering can, fill with water and sprinkle around edge of pool. Apply initial treatment to a fresh filled pool or at first visible signs of algae growth.

WINTER DIRECTIONS: Use 2fl.oz. per 5,000 gallons of water for initial treatments, 4fl.oz. for 10,000 gallons (8fl.oz. for 20,000 gallons, 16fl.oz. for 40,000 gallons) of pool water. Maintenance doses of Pour the required amount into a plastic watering can, fill with water, and sprinkle the diluted product around the edge of pool. For best results, the mixture must be distributed around the pool.

Add this product to your pool prior to closing. During the winter season check pool periodically for visible signs of algae and reapply this product if necessary.
